eign News.

London, April 14.—The reappearance of in-
fluenza in the north of England, where it ap-
peared last summer, has caused great apprehen-
sions of a serious epidemic. In addition
to the fact that influenza is already prevalent in
an epidemic form in Shetland, as already
noted, the disease is prevalent throughout
Yorkshire, and has reappeared suddenly at
Hull, where the death rate had doubled dur-
ing the last fortnight.

Within a radius of twenty miles from Hull
nearly every county has more or less, and
where there have been many deaths in the
district from the disease.

At Birmingham the outbreak is of a milder
character and has not spread so widely.
Nevertheless, there are numbers of people
suffering from the malady in and about Bir-
mingham.

In Lincolnshire also the reports show that
there is a general renewal of the epidemic
in several other counties make similar re-
ports.

Advice from Paris show that several cases
of influenza have been reported to the med-
ical authorities of that capital, but the
prevalence of the disease is not yet general,
although there is every indication of a seri-
ous renewal of the epidemic.

THE TENNESSEE DERBY.

Starters in To-Day's Events at the Mem-
phis Races.

MEMPHIS, Tenn., April 14.—There are four
races on to-day's programme besides the

Derby, and as each is well filled they may be
expected to furnish good sport.

Two of the events will be for 2-year-olds, and no
one can say with certainty which one will be
the standard-bearer.

Hon. John W. Springer of Illinois was elec-
ted temporary secretary.

Gov. Francis of Missouri, who welcomed the delegates on
behalf of the state.

T. Dwight Thatcher of Topeka welcomed
the strikers, but the troops are kept
confined to their barracks and are under
armour to prevent any outbreak of the
riots.

Adjournment was then taken until 3
o'clock this afternoon.

Upon reasonable letters of regret were
read from those who had been given special
leave to attend the congress. Among
the letters was one from Hon. J. M. Bush,
Secretary of Agriculture.

cerned in such work, and others who,
while occupying a high social position, are interested
in philanthropic and good citizen work.

REJOICING AT APOLOGIES.

The Turkish government to Austria.

Austria has suddenly withdrawn the
subject of religion and insisted on starting her
for her sins. She went without food for
five days, when she being too weak to
resist, food was administered forcibly. She
is still in a faint on self-restraint.

EFFECT OF SOCIALISTIC LITERATURE.

A marine at Kiel, who made an attempt to
desert and was captured, has confessed
that he was led into the ranks by reading
socialistic literature, which had
almost entirely destroyed his religious
sense.

is aiming at a customs coalition between
herself and the countries mentioned against
France.

be impossible for us to surmise, since we
have as yet no direct communication from
Ireland. When the matter is settled one way
or the other there will, you may be assured,
be no lack of money from America. This
comes from the fact that Ireland is most
concerned for the welfare of its people.

Mr. Fitzgerald said that no cable communica-
tion had passed between the Council and the
leaders in Ireland, but that inasmuch as
U.S. cables are now in communication with
Mr. Parnell by letter. It is anticipated that

pass with him and the present firm of McPherson, Switzer & Co. were formed. They are the St. Louis correspondents of McCormick & Co. of Chicago and New York.

OF A SPECULATIVE TURN.

A warm, personal friend of Mr. McPherson in Speculation, the man who transacted with him, "Mr. McPherson began business on his own account, he made an arrangement which was very disadvantageous to himself. He undertook to pay too much, and then the more advanced him by his financial backer, Page always was of speculative turn, and has for years dabbled in the market. About four years ago he possessed himself of considerable money in speculation and this encouraged him to go in deeper. He did not

know what he was unable to make his concern pay his backer what the latter wanted, and pay himself also, so he went to speculate in hopes of making up deficiencies. He had a good record, his old dealings were never large enough to cut any figure in the market, but it was at once and quickly dabbled his money away. To make good losses Page borrowed from his friends. He kept on borrowing and kept on losing. He would borrow from Peter to pay Paul until he found that everybody from whom he could secure anything. His credit exhausted, he was unable to meet the demands made on him, and it is my firm belief has himself. The old friends of his father did not receive from him personal friends among the young men. I believe he owes somewhere between \$20,000 and \$25,000. Few men have any idea how much he really owes, because the firm with not be affected by his dealings, as they were all personal. He had overdrawn his accounts some, and I have no doubt that his partner, Mr. Switzer, had nothing to do with this. The street signs that date, that he must make good the money. Page could not do so, and feeling that he had reached the end of his life he disappeared and in my opinion has taken his life.

HIS PARTNER FEARS THE WORST.

Mr. Charles M. Switzer, Mr. McPherson's partner, was called up at his office, where he was surrounded by a number of the missing man's friends and intimates, who came to him to inquire into the case and discuss the case. All spoke very sympathetically and declared that while Page was undoubtedly heavily involved in debt, the firm being the only uninvolved made away with a dollar. It seemed to be the almost universal belief among his friends that he had taken his life.

"There is not the slightest doubt in my mind that he is not the man I believed him to be," said Mr. Switzer, "and I believe that his body will be found within five miles of here. Hiding out in the case Thursday night, Mr. Switzer does not speak very despondently and made no more than life not being worth living and things of that sort. Chief of Police Harrigan takes a different view of the case, but I am firmly convinced that he is not the man I believe him to be. He spoke of business troubles or of financial worry of any sort. It was a very common thing for him to be away from business and be away for several days on a time. I do not know any of the particulars, however, except that we have not been able to get any information from him."

PHAROAH IN CHICAGO.

Mr. M. McPherson, Jr., a nephew of the missing man, was seen at the Boatman's Bar by a Post-Dispatch reporter. "My father does not believe that Page has been to Chicago to do any business," said Mr. McPherson. "He is a man of very poor health and made away with a dollar. It seems to be the almost universal belief among his friends that he had taken his life.

All spoke very sympathetically and declared that while Page was undoubtedly heavily involved in debt, the firm being the only uninvolved made away with a dollar. It seemed to be the almost universal belief among his friends that he had taken his life.

"There is not the slightest doubt in my mind that he is not the man I believed him to be," said Mr. Switzer, "and I believe that his body will be found within five miles of here. Hiding out in the case Thursday night, Mr. Switzer does not speak very despondently and made no more than life not being worth living and things of that sort. Chief of Police Harrigan takes a different view of the case, but I am firmly convinced that he is not the man I believe him to be. He spoke of business troubles or of financial worry of any sort. It was a very common thing for him to be away from business and be away for several days on a time. I do not know any of the particulars, however, except that we have not been able to get any information from him."

Mr. Charles M. The independent campaign fund does not represent any assessment of candidates.

The conditions which prevail in Chili are a disgrace even to South American civilization.

There is only one newspaper in St. Louis which takes any interest in the question of circulation. The reason is obvious.

The day has come when the Chief Magistrate of this Republic travels with a state and pomp surpassing that of any European sovereign.

The profit of the investment of \$7,500,000 in an educational campaign will show itself later when citizens have had time to digest the lessons of the election.

EX-SENATOR INGALS is now planting potatoes on his farm. This is better than writing letters promising to make vegetables grow in the garden of Kansas politicians.

The disappearance from St. Louis society of PAGE MCPRISON furnishes another object lesson in the course of instruction on the dangers of the prevailing scramble for wealth.

In the contest between the Holy Land and the Bartenders' Guide we will not take a hand. Our impartial duty to journalism will be performed when we print the portraits of the winners.

CHICAGO is a big town but she cannot tramp on St. Louis. As a matter of fact she cannot even whip one St. Louis woman unless we are greatly mistaken concerning the ability of Miss PHRICE COOKE.

TREASURER HUNTON's resignation has been accepted by the President, but the interests of Indians have been protected in the selection of his successor. No matter what happens Indians retains her grip on the National Treasury.

EDMUND stood a good deal from his party. He stood HAYES, and did not resign when BLAINE was nominated. He even looked down on HARRISON's administration for two years without resigning. But he could not and would not endure two years more of it.

This is the last day of grace for the United States and if Secretary BLAINE does not send that note around to Marquis RUDIN the Atlantic coast will be lined with Italian gunboats. Eastern people who feel nervous can plenty of room in the West where they can stay until the bombardment is over and the Atlantic ports can be rebuilt.

SILENCE, deep and tranquil as of the grave, envelops both of the morning papers on the much agitated question of circulation. This compels us to renew our original proposition, that the circulation of the Post-Dispatch in the city of St. Louis exceeds that of the *Globe-Democrat* and *Republic* put together.

INASMUCH AS imitation is the sincerest flattery, it might be supposed that the Post-Dispatch would be flattered by the attempt of an uncirculated newspaper to imitate the success of our famous Teachers' Contest and European tour of last year. But a stupid and clumsy effort at imitation which invites the derision of the beholders is not a form of flattery acceptable

to the judicious mind. The peacock was not flattered when he saw his cast-off and bedraggled feathers picked up by the magpie, nor were the lions of fable flattered when the ass attempted to cover himself with a lion's skin.

CLEVELAND'S INDEPENDENCE.

In an address to a Democratic club on the Jefferson anniversary, Mr. CLEVELAND said he wished to be regarded as a Democratic partisan "so long as conditions exist which make adherence to the doctrines of the Democratic party synonymous with 'patriotism,'" in his opinion.

That is to say, he is with the Democratic party on the tariff question, but against it on the silver question—believes in its original creed and principles, but so far only as the party accepts his interpretation and application of them to current questions can he support the party.

It follows as a matter of course that where they differ, as they do on the silver question, patriotism requires him to oppose the party's policy, and the party to oppose his policy. A great patriot cannot sacrifice to party his duty to the country, and a great party cannot surrender its deliberately chosen position on a great public question at the command of one man and against the judgment of its hundreds of statesmen and millions of intelligent voters.

What bothers the Democratic leaders just now is the fact that millions of Democrats are just such partisans and just such independents as Mr. CLEVELAND by his own description of himself is, only they oppose him on the silver question, and threaten to oppose the party if it nominates him, as he doubtless will do if it nominates a free coinage man.

But that robust and virile independence in politics which puts country and honor above party is the salt which saves our political parties from becoming a great mass of festering corruption. It forces them to address themselves to public measures and questions of policy instead of sacrificing everything to mere spoils getting. It compels them to seek recruits by appealing to patriotism and intelligence instead of relying on their mercenaries. Whenever the trading politicians ignore any great question they sooner or later find in both parties enough independent voters to form a new party. If the people never broke party lines on account of such questions, ours would soon cease to be a government of the people, and would become a mere spoils machine operated by an oligarchy of bosses.

ADVERTISING AGENTS.

In an editorial article on "Barnum as an Advertiser," the *Globe-Democrat* makes the following contemptuous reference to the advertising agents:

Barnum did not have any dealings with advertising solicitors. They were probably informed when they approached him that he preferred to order what he wanted in that way, and that he did not care to do it, just as he ordered everything else in the way of promoting the prosperity of his "greatest show on earth." They had nothing to tell him that he did not already know, and their importunities were a burden and a bore to him.

Inasmuch as the *Globe-Democrat* employs an advertising solicitor in St. Louis and receives a great many thousands of dollars' worth of advertising from agents outside of St. Louis, its business practices are not in accord with its editorial sentiments.

The *Globe-Democrat* adds: "There is a lesson in this for all business men who patronize a newspaper." There seems to be a lesson in it for those business men who carry on the business of placing advertisements, and who represent as legitimate a need of business as the commission merchant, the stock broker, the real estate agent or any other form of brokerage.

Those opposed to the proposition maintain that the Exchange occurs a home by negotiations carried on by a small committee of the members of the Exchange, and no disposition is made to have it in the hands of the owners who are willing to sell at a certain price. In case the proposition should be rejected the property could only be sold at a lower price, and it is argued that real estate owners are not given such a price unless the price is placed much higher than they would be willing to accept. Members of the committee have no right to interfere with the negotiations of the members of the Exchange, and no disposition could be made of it without the consent of three-fourths of the members.

This resolution was presented by John W. Kauffman, chairman of the Real Estate Committee, and will be submitted to a vote on May 15.

EFFECTS OF THE MEASURE.

The proposition, if adopted by the members of the Merchants' Exchange, will radically alter the management of the reserve fund, and the members of the Exchange will be in the hands of the members of the Exchange, and no disposition could be made of it without the consent of three-fourths of the members.

The Board of Directors are hereby authorized and directed to make such arrangements as they may see fit and agree that the dis-

putes of the members of the Exchange, and the members of the Board of Directors, as far as possible, will be settled by arbitration.

It is decided that no disposition should be made without a three-fourths vote, and until the present resolution was introduced no attempt has ever been made to adopt the amendments, but this vote is to be adopted.

It is decided that no disposition should be made without a three-fourths vote, and until the present resolution was introduced no attempt has ever been made to adopt the amendments, but this vote is to be adopted.

Those opposed to the proposition argue that the amendment is disguised as setting at naught the safeguards that after long and careful consideration were thrown around the reserve fund, and without which such a fund would be of no value and disappear.

A Proposition to Place the Purchase of a Site in the Hands of a Committee—Arguments of the Advocates and Opponents of the Change of Rules—A Hot Contest Predicted.

The resolution passed yesterday by the Board of Directors of the Merchants' Exchange in reference to the disposition to be made of the surplus fund, caused a great deal of comment in the street to-day, both favorable and unfavorable. The resolution, which is in the nature of an amendment to the law that the surplus fund cannot be appropriated to any use without the consent of three-fourths of the members voting, is as follows:

THE WEEK'S ATTRACTIONS

A LIST OF WHICH RANGES FROM HIGH ART TO INDECENCY.

GILLETTE'S "All the Comforts of Home"—The Blot at the Grand—"Old Jed Prouty"—Monte Cristo's Bazaar—Burlesque—Musical Events.

Mr. Charles Frohman impresses his managerial versatility upon the St. Louis public by presenting within a couple of weeks two attractions of totally different natures.

Last week he gave the St. Louis theatergoers the newest drama in "Men and Women" and this week he gives them the farcical drama in "All the Comforts of Home" at the Olympia.

Both attractions, however, are of the same cast in quality of production. Intelligent care and liberality are as noticeable in the staging and casting of the one as of the other. "All the Comforts of Home" represents an admirable take

revenue, far removed from the sough of spec-

ial entertainment into which it has fallen.

The play is a legitimate farce de-

pending entirely upon the humor of its situations, the test of its success.

The actors have expression to convey

its success. It is adapted from

German, and hence the amusement

is derived from the amazement

of the audience for the effort.
